

# Commercial Flood Door

MULTIPLE OPTIONS

**A pedestrian door that operates as a flood barrier when activated & is perfect for critical infrastructure.**

The Commercial Flood Door is internally reinforced and has a mechanical sealing mechanism housed within the frame, giving a tight seal when properly closed. This pedestrian flood door is an active flood barrier when engaged, and are ideal for critical infrastructure locations such as mechanical and electrical rooms.

## Applications

Egress Doors | Mechanical & Electrical Rooms | Critical Infrastructure

**FEATURES**

**Dual-Function**

Operates As A Standard Door

**Color Options**

Powder Coat Paint Available

**Customizable**

Glass Port, Panic Bars, & Special Locks

**Meets ADA Requirements**

The flood door can be manufactured in either aluminum or steel, depending on your needs. Because it looks and operates like any other door, the aesthetic impact is minimal. Choose from many customization options for your door, including standard panic bars, specialized locking hardware, small glass view ports, and more.

**Tested**

Hydrostatic Testing Up To 6'

**Finish Options**

Choose Steel Or Stainless Steel

**Door Dog Removable Sealing Latch**

Before a flood, each door can be activated in seconds by engaging door dogs on the top and bottom. This creates a tight seal, quickly initiating floodproofing capabilities.
